THANK YOU FOR PARTICIPATING IN OUR CURBSIDE RECYCLING COLLECTION PROGRAM!

Your Curbside Recycling Starter Kit contains information you will need to participate in the collection service: collection schedule, materials list and sorting instructions.

CURBSIDE RECYCLING PROGRAM

The Eco-Depot conducted a 3-month recycling pilot project from October to December 2008. The pilot project was so successful that we have expanded the service citywide in Fort St. John and Dawson Creek.

SORTING

Please sort your recyclable materials into two blue bags: paper and containers. Bundle your cardboard. Place your glass in a reusable box.

Your starter kit includes information on which materials will be collected and how they must be sorted. Collection drivers will not pick-up blue bags that contain prohibited materials, so please make sure you review everything in your starter kit.

BLUE BAGS

Our curbside collection service uses blue bags. Blue bags can be purchased from any local store that sells regular garbage bags, e.g. grocery stores, Wal-Mart, Canadian Tire, or Home Hardware. Optional wire bag hangers called “Bag Buddies” can also be purchased at Canadian Tire.

COLLECTION

Recycling is collected every 2nd Monday. Refer to your collection schedule for details. Please place your blue bags and bundled cardboard at the curb on collection day. There is no bag limit for recycling collection.

Please make sure your recyclables are in blue bags. This ensures the collection driver will identify them as recyclable items rather than household garbage. Remember to hand tie your bags securely to prevent spilling during collection.

QUESTIONS / COMMENTS

Thank you for participating in the Eco-Depot curbside recycling collection service. If you have any questions or require further information, please give us a call at 1-866-913-3760 or visit our website www.dawsoncreekcurbside.com.
